## PROFESSIONAL SUMMARY

Senior Full-Stack & Machine Learning Software Engineer with 7+ years of experience designing

## WORK EXPERIENCE

AlphaAI Technologies - Senior AI Engineer (2022 - Present)

- Architected document intelligence and computer vision workflows using PyTorch and OpenCV.
- Scaled Python FastAPI microservices serving 15,000 requests per minute with Docker & Kubernetes.
- Mentored junior engineers and led Scrum sprint planning.

Starlight Systems - Software Developer (2019 - 2022)

- Developed interactive frontend web applications using React, TypeScript, and Tailwind.
- Implemented automated CI/CD pipelines with GitHub Actions and AWS EC2/S3.

## TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C++, Bash

Frameworks: React, FastAPI, Django, Flask, PyTorch, Scikit-Learn

Cloud & Tools: AWS, Docker, Kubernetes, Git, Linux, PostgreSQL, Redis, OpenCV

## EDUCATION

B.S. in Computer Science & Applied Mathematics, UC Berkeley (2015 - 2019)
